### Support for Your Tobii Dynavox Device

#### Get Help Online

See the product-specific Support page for your Tobii Dynavox device. It contains up-to-date information about issues and tips & tricks related to the product. Find our Support pages online at: [www.TobiiDynavox.com/support-training](http://www.TobiiDynavox.com/support-training)

#### Contact Your Solution Consultant or Reseller

For questions or problems with your product, contact your Tobii Dynavox solution consultant or authorized reseller for assistance. They are most familiar with your personal setup and can best help you with tips and product training. For contact details, visit [www.TobiiDynavox.com/contact](http://www.TobiiDynavox.com/contact)

## Local Security with Multiple Users

On computers with multiple user accounts, lock these files and folders containing personal information:

### Windows

- %USERPROFILE%/AppData/Roaming/Tobii Rubicon/storage/<versionNumber>
- %USERPROFILE%/Documents/Boardmaker/Projects/<emailAddress>
- %USERPROFILE%/Roaming/Tobii Rubicon/shared/offline-data/<userId>

### Mac

- ~/Library/Containers/tobii-rubicon-player/Data/storage/<buildNumber>/
- ~/Documents/Boardmaker/Projects/<emailAddress>
- ~/Library/Containers/tobii-rubicon-player/shared/offline-data/<userId>

## Proxy Information

Ports 80 and 443 must be open for outgoing traffic.

## Whitelist Domains

The following URLs must be whitelisted:

- \*.boardmakeronline.com
- \*.tobiidynavox.com
- \*.s3.amazonaws.com
- \*.azure-api.net
- \*.azurewebsites.net
- \*.core.windows.net

## Compatibility Tester App

The Compatibility Tester analyzes your device to determine if the current configuration is compatible with the Boardmaker 7 software.

The Compatibility Tester is only available for Windows and Mac.

1. Double click the Compatibility Tester file to run the application.
2. The Compatibility Tester analyzes your device in three areas: Operating System, Services, and Rendering. At the Rendering phase, look for a picture of a bear in the bottom section of the app window. Select **Yes** if you see the picture of the bear. Select **No** if you do not see the picture of the bear.

## Troubleshooting

If the Compatibility Tester app will not run or fails at step 1 — Operating System, your device may not meet the minimum requirements.

- Check your device specs against the minimum requirements listed in section *Minimum Requirements, page i*.
- Verify that your user account on the device has sufficient privileges to run the Compatibility Tester app.

If the Compatibility Tester fails at step 2 — Services, or 3 — Rendering, take the following steps and then run the Compatibility Tester again.

- Check that your device has an active network connection that can access the internet.
- Verify that the domains listed in section *Whitelist Domains, page ii* have been whitelisted on your network.
