6. When the installer files have finished downloading, launch the **Boardmaker 7 Editor** installer and follow the prompts to complete the app installation.
7. Launch the **Boardmaker 7 Student Center** installer and follow the prompts to complete the app installation.

For information about push installs, see the [IT Deployment Guide](#) and [Compatibility Guide](#).

Do not attempt to share the installer file as an email attachment. To share the installer by email, upload the installer to a file server or cloud storage and then share the link to the file in the body of the email.

8. The Boardmaker 7 apps are now installed.

These early release versions are not functional. The apps become fully functional when updated to the release version in Autumn 2020.
