The power to express myself

Introducing Indi™

The world's first all-in-one, consumer-focused
speech tablet for symbol communication

Power to be You

tobii dynamox

Indi gives you the power to express yourself

Indi is the world's first all-in-one, consumer-focused speech tablet for symbol-based communicators. Our revolutionary Snap™ + Core First® software comes pre-installed, empowering you to instantly take control and accelerate your communication journey.

Snap is designed to be intuitive and easy to get started with so you don't have to spend hours on choosing the right software, setup, or getting the right content in place – it's already done for you! At the heart of Snap is the Core First pageset, a research-based Core Word framework to help you continuously build your vocabulary and communication skills. Core First is built on three pillars for communication success: growth, engagement, and literacy.

Unlike anything else on the market, Indi was created specifically for Augmentative and Alternative Communication (AAC) and comes with all of your needs fully integrated. That's why we created a tablet with speakers loud enough to give users a powerful voice and we've included free access to an ecosystem of support and expertise.

Incredibly priced at \$999, the consumer-focused (non-funded) Indi can be directly purchased from Tobii Dynamox – online or through your local consultant – and you'll get it in just a few days, no waiting required.

"I couldn't believe how easy Indi was to get started with. When you turn it on it's just a few quick steps and you're immediately able to start communicating."

– HUNTER'S DAD

Powerful built-in speakers

Built for your world

with an easy-to-hold, ergonomic design, Indi is ultra-portable and ready to go out-of-the-box.

Adapts to your access method

with numerous compatible inputs such as switch-scanning, head-mouse, and touch with keyguards, etc.

Indi is designed around your needs

Created to be heard

with powerful, outward facing, built-in speakers providing clear speech, exceptionally loud output, and a wide range of authentic sounding voices.

Made for everyday interactions

with capabilities that go beyond speech communication like Environmental Control Units (ECUs), Infrared (IR), access to social media, email, and texting.

Indi & the Power to be You

We believe everyone deserves a voice, the opportunity to gain literacy, and to achieve independence. Indi provides you with:

The power to express yourself

There is power in being able to talk to friends, build relationships and express who you are. Indi has everything users need to develop their own voice and build independence.

The power to focus on what matters

Indi helps you focus on communication, not technology. It's an all-in-one communication solution, and Tobii Dynavox offers unmatched support for hardware and software.

The power to fulfill your potential

Literacy creates opportunity. Based on years of research and user testing, Snap + Core First is an intuitive software solution created to move symbol-based communicators forward.

A companion for your literacy and learning journey

Learning language, achieving literacy and becoming an independent communicator is a journey with many stages. Snap + Core First is the most interactive and engaging software solution on the market that meets each communicator wherever they are on that journey and evolves with them as they grow.

Why is it easy to use? Snap is centered on consistent design and organization across all pages and navigation, which means that users and those who communicate with them will find Snap intuitive and simple. A new search tool also makes it easy to find words quickly.

How does it help users grow? Based on proven research by the University of North Carolina at Chapel Hill, Core First was designed for you to move forward on your communication journey. As you evolve, Core First will evolve with you – meaning you'll never lose what you've already learned as you unlock additional vocabulary and new concepts.

Why is engagement important? Core First allows its users to be engaged in quick, real-time conversation about topics that are most important to them. Using the tools provided, communicators can participate, initiate, or even lead conversations with communication partners.

Is literacy possible? Yes, we believe that all communicators should have access to literacy tools. No matter your starting point, Core First will help you learn new words, continuously grow your skills, and build upon them – making literacy possible.

Customizable Grid Sizes

Tobii Dynavox gives you the power to focus on growth

Comprehensive ecosystem of support

To keep your focus on communication growth, and not worry about technology, you will receive full access to a truly unparalleled and free ecosystem of content and a library of resources.

Pathways for Core First is a great resource and easy to follow implementation tool to help you reach your communication goals. This free companion app offers a guided experience to successfully implement Core First. Packed with expert knowledge, find lesson plans, tips, and videos to help you get the most out of Core First.

MyTobiiDynavox is an online tool for connecting with team members and other families to share files and resources. You can securely backup Indi's data to MyTobiiDynavox, where you can seamlessly manage all your files.

Discover Tobii Dynavox is an app that comes pre-installed on Indi and was created to give quick and easy access to resources (trainings, quick links, tips, etc.) in one convenient place.

Core First Learning is a free web-based program delivered through the free Boardmaker® Online Student Center. It takes Core Word lessons to a whole new level with interactive books and activities.

Core First Books and Lessons are downloadable and help to support Core Word learning and reinforcement. Printed box sets are also available for purchase.

Expertise and experience you can trust

Indi is the innovative result of a highly experienced team from Tobii Dynavox made up of educators, clinicians, PhDs, engineers, and professionals who are passionate about empowering others to reach their full potential. We work every day to help people communicate and achieve literacy, so they can live richer and more independent lives.

Tobii Dynavox is the leading provider of touch and eye tracking based assistive technology hardware and software. We have helped provide a voice to tens of thousands of individuals with disabilities such as autism, cerebral palsy, Down syndrome, intellectual disabilities, aphasia, ALS, Rett syndrome and spinal cord injury with our world-class technology and solutions.

An all-in-one solution that is affordable and attainable

We want to help communicators get started quickly, without anything else getting in the way. Instead of dealing with insurance, referrals, and waiting for months to get started, you can order the Indi online now, and receive it within days.

Ordering Indi is as easy as purchasing a consumer tablet, but without the need to buy additional equipment, like add-on speakers and software for communication, or going to multiple sites for assistance.

For \$999, Indi offers everything needed to get going right away with symbol-based communication, at any proficiency level. That includes integrated software and extra powerful speakers, along with the same features as any other Windows 10 tablet, like access to the internet, rear and front-facing cameras, and apps for social media and games.

Indi with Snap + Core First, all for \$999

Indi, our consumer-focused (non-funded) speech tablet, includes everything needed to start right out of the box and build success, including our Snap + Core First communication software. Ordering Indi is as easy and fast as purchasing a consumer tablet, no waiting required. To learn more about Indi with Snap + Core First, please visit tobiidynavox.com/indi

Technical Support and Warranty

Service and support is easily available from one place, Tobii Dynavox, for all your Indi with Snap needs. Indi comes with a 2-year manufacturer's warranty and 90 days of telephone support to get you up and running quickly.

The optional Support360SM warranty comes with telephone support and covers any device repairs, no questions asked! Support360 is available for \$299 for one year, \$549 for two years and \$799 for three years. Alternatively, you are able to purchase telephone only support for \$99 per year.
