*The device may be ordered in Standard or Dedicated setups. The Dedicated setup is designed specifically to run communication software only. The setup meets the “Speech generating device” requirements of Medicare, Medicaid and other insurers who generally follow Medicare's Speech Gener...
The PCEye Plus is a peripheral eye tracker that provides the most efficient and ergonomic way to access your world. By combining advanced eye tracking technology, speech recognition, switch and IR control, it enables you to connect with your computer and surrounding environment seamlessly.

The PCEye Mini is our eye tracking platform with the highest performance to date - a combination of excellent robustness, accuracy and precision. It replaces the standard keyboard and mouse, allowing you to navigate and control your laptop or desktop computer using only your eyes.

The EyeMobile Mini is a hands-free computer access solution for use on Windows 7, 8 and 10 tablet devices. With Gaze Selection and the Functions Overlay, you are able to access all functions as well as the 600,000 apps that run on Windows tablets without the need for special apps designed for gaze interaction or eye control. Includes IS4 eye tracker.

---

**Communicator 5**

**A more efficient way to communicate**

Tobii Dynavox Communicator 5 is a comprehensive AAC software that provides a voice and independence to those in need of communication solutions. It offers ready-made communication pages, on-screen keyboards, intuitive tools, and so much more!

**Purposeful communication**

Communicator’s benefits for adult literate users include the frequency-based word prediction, built-in grammar functions, word conjugation and access to Windows desktop and applications.

Individuals who use eye-tracking also greatly benefit from Communicator 5 because it supports continual growth with eye tracking devices.

**Speed and accuracy**

Communicator lets users who cannot read or write use communication symbols or other pictures to support their interactions. It ships with over 15,000 SymbolStix symbols and other standard communication symbol and picture libraries are supported.

**High quality voices**

Communicator comes with a high-quality speech synthesis engine that reads the text and symbols you produce. A clear and coherent voice, specific to your language, speaks messages for you.

**Control your environment**

You can use infrared light (IR) transceivers to control your TV, DVD player, and games. You can also use it to adjust the position of your bed, open doors, turn lights on or off, and more.

**Keep in touch with friends**

Easily communicate via online chat, email and text message. You can even make a phone call using the synthetic voice*.

**Access to your Windows computer**

Not only does Communicator 5 give you access to the functionality within the software, but it also gives you control over the Windows environment. Control any Windows application. This is done via the Communicator Windows keyboard and Tobii Dynavox Gaze Interaction Software.

**Supports all input methods**

Communicator supports input via touch screen, mouse click, mouse dwell, joystick, head house, or eye control and has many adjustable settings for your personal preference.
Harness the power of myTobiiDynavox.com

Choose Snap + Core First, Compass or Communicator and start harnessing the power of myTobiiDynavox — your personal website for managing and backing up your communication tools, connecting with your entire communication support team, and sharing communication pages.

Upload, store, share, manage and learn...

With myTobiiDynavox, you can also…

- Download additional pagesets and voices
- Purchase apps and software
- And, so much more!

Early Intervention Bundle

The Early Intervention Bundle will help to set your child on the path to language success. Includes Snap Scene – an instant scene-based communication and language learning app, ALL – a trail-blazing reading program to help non-verbal students learn how to read, and Pathways for Snap Scene – a one-of-a-kind app for Snap Scene that is packed with expert advice.

Snap Scene and ALL are available for the iPad from iTunes and for Windows and Tobii Dynavox Indi, Indi 7 and I-Series+ devices from mytobiidynavox.com

Gaze Viewer

Gaze Viewer is an assessment tool that helps you understand an individual user’s physical capabilities, understanding, and use of an eye tracker. When combined with an eye tracker, you can record real eye tracking data from any application, whether from the Internet or e-books, games, movies and more.

Boardmaker® Online

Boardmaker Online is a complete system to create engaging symbol-based print and interactive materials that support communication, learning, access and social emotional learning.

- **Boardmaker Student Center** is accessible on any Tobii Dynavox device and allows students to play activities assigned through Boardmaker Online.
- **Boardmaker Instructional Solutions**, included with a paid Boardmaker Online subscription are pre-made print and interactive programs designed for students with special needs.

Get started with a FREE 30-day trial today. [www.boardmakeronline.com](http://www.boardmakeronline.com)

Plus, check out Boardmaker Activities to Go. Download, print, and go with **FREE** thematic units featuring PCS symbols. Follow us on Facebook to hear about them first.
Compass

Communication without compromise
Tobii Dynavox Compass is the innovative, flexible, and robust software solution that empowers individuals with complex communication needs. Supported through multiple communication tools, pagesets, access features, and so much more, Compass creates a world of communication possibilities.

Communicate with confidence
Support everyday conversations with a full breadth of pre-stored communication symbols, pictures, words, and phrases.

Pave your path to literacy
Core First helps you continuously build vocabulary skills and takes advantage of motor learning by introducing new vocabulary systematically and purposefully. It is built on three pillars for communication success:

- **Growth** – Core First was designed for you to move forward on your communication journey, and as you evolve, Core First will evolve with you.
- **Engagement** – Quick, real-time conversations about topics that are most important to users are possible thanks to the tools provided.
- **Literacy** – No matter your starting point, you can continuously grow your skills and build upon them – making literacy possible!

Snap + Core First®

The power to fulfill your potential
Snap + Core First is a symbol-based, interactive and engaging software solution that meets each communicator wherever they are on their communication journey and evolves with them as they grow. At the heart of Snap is Core First, a pageset that is centered on Tobii Dynavox’s systematic delivery of the Core Word framework, Topics, QuickFires, Behavior Supports, Word Lists, and Keyboards.

Start communicating immediately
With tools and supports like Core Words and Topics, communicators are empowered to initiate and guide the conversation. Snap also has the easiest navigation and a tool bar to support you as you move around the system.

Easy customization and consistency
Snap features a new user interface for easy editing and grid size changes, and features common functions, quicker actions, and a new Search tool for finding words quickly.

Pave your path to literacy
Core First helps you continuously build vocabulary skills and takes advantage of motor learning by introducing new vocabulary systematically and purposefully. It is built on three pillars for communication success:

- **Growth** – Core First was designed for you to move forward on your communication journey, and as you evolve, Core First will evolve with you.
- **Engagement** – Quick, real-time conversations about topics that are most important to users are possible thanks to the tools provided.
- **Literacy** – No matter your starting point, you can continuously grow your skills and build upon them – making literacy possible!

Snap + Core First®

Install on any iPad or Windows 10 device. Learn more at tobiidynavox.com/snap
