Ecosystem of Products

AAC and Education Solutions
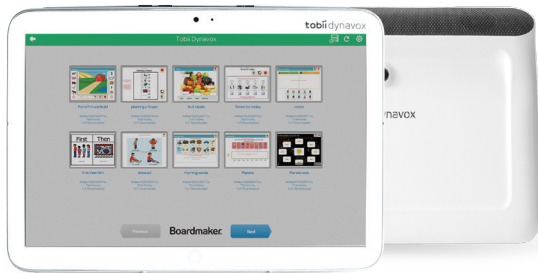

A comprehensive portfolio of products designed to support users and their communication partners.

Power to be You

Multi-Access Hardware

Communication devices for touch, switch and mouse control

Indi®

All-in-one AAC tablet complete with integrated, extra loud speakers and pre-installed with Snap + Core First®. Created to be heard, Indi comes with all user needs fully integrated - including capabilities like environmental control, infrared, access to social media, email, and texting.

I-110

This is assistive technology tailored for real life. Featuring a purpose-built, ultra-rugged design, Gorilla Glass, naturally intuitive user interface, an IP54 classification, and a two-year warranty, the I-110 is an Augmentative and Alternative Communication (AAC) device that delivers exceptional durability, performance, and reliability. The I-110 comes with Snap + Core First, Grid or Communicator 5, Snap Scene, ALL, and the Boardmaker Student Center.
Speech Case

Designed specifically for AAC with ultimate durability and unmatched sound, the Speech Case helps to unleash the power of the iPad, so you can experience AAC the Tobii Dynavox way. Equipped with extra loud speakers, warranty options, and more - the Speech Case provides a reliable communication solution for iOS users by transforming your iPad into a true AAC device.
Picture Communication Symbols

Discover our PCS Collections available in three distinct styles designed to fit any user! With over 40,000 symbols and more added every two weeks, you will never run out of great topics.
Classic

Classic style PCS symbols offer flexibility and simplicity for our customers by providing basic colour palettes, thick black lines and options for gender neutral avatars.

ThinLine

The ThinLine style was developed to provide a more modern look to our symbol sets. The added realism, while maintaining a clean, uncluttered style is what makes the ThinLine symbols so popular.

High Contrast

People experiencing cortical visual impairment often require simple symbols with dark backgrounds to see the symbols clearly. PCS High Contrast symbols are designed to support this need.

AAC Software

## Robust and flexible communication systems

Snap + Core First

A symbol-based communication app designed to be the most intuitive solution on the market. Snap + Core First lets users start communicating quickly and stay engaged as they grow and evolve on their communication journey. Centered on Tobii Dynavox's Core First approach to delivering a systematic, proven, research-based Core Word framework, this app provides the fastest and most efficient platform for communication for all users including students, parents, and teachers.

Communicator 5

For emerging communicators to literate adults, Communicator 5 is a software package designed to help individuals with communication disabilities communicate more efficiently. Communicator 5 converts text and symbols into clear speech, and offers easy-to-use tools for computer access, e-mail, text messaging, telephone, environmental control and more.
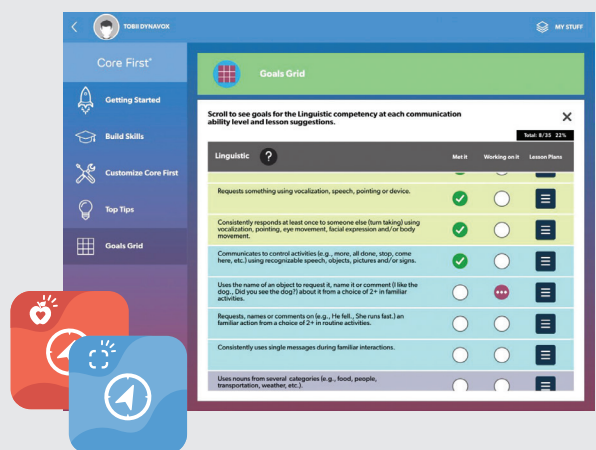

Snap Scene®

Instant scene-based communication app from Tobii Dynavox for jump-starting your learner's language development. Snap Scene is a perfect app for immediate learning opportunities. Take a photo and tag it with recordings to let your child communicate on the fly. Snap Scene turns everyday moments into chances to learn to communicate naturally. It's that simple!

Pathways

for Snap + Core First and Snap Scene

Pathways is our framework for learning and understanding how to implement Tobii Dynavox software, hardware and ideas. Created by experienced clinicians and educators at Tobii Dynavox, Pathways is free and easily accessible for parents, caregivers, communication partners, and speech language therapists (SLTs) who are looking for expert guidance, best practice and a convenient way to develop their skills.

Start your free trial at **www.boardmakeronline.com**.
Click '**sign up**' to begin.

Accessibility
Use any access method, from eye gaze to scanning to touch

Print and Interactive
Create and edit a variety of ready-made printable and on-screen activities

Efficiency
Minimize prep time by using pre-made resources and templates
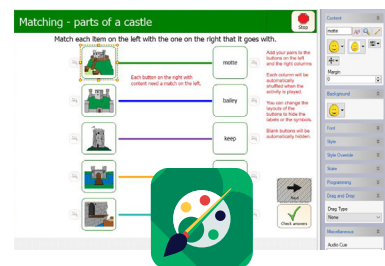

Core First Learning and Reading Avenue

Teach beginning communicators how to find, use and read core words on their AAC systems with Core First Learning. Then use our accessible, comprehensive, learn-to-read program, Reading Avenue, to provide three differentiated levels for all beginning readers with predictable daily lesson plans, visual schedules, and easy implementation supports for engaging, evidence-based literacy instruction.

Boardmaker Studio

Spend less time and achieve more with the new Boardmaker Studio for Windows – our most versatile solution and your complimentary supplement to Boardmaker Online. Windows users are now able to seamlessly download, edit, and re-upload any activity stored in Boardmaker Online and have it sync across both solutions.

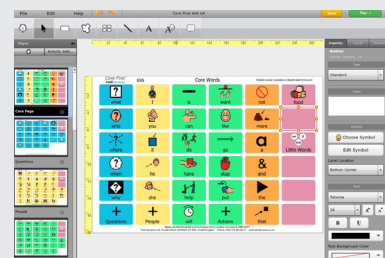

Boardmaker Activities-to-Go

A FREE collection of leveled thematic units featuring PCS for your learners with special needs. Download and start teaching today with games, books, communication boards, behavioural supports, and more.

Printable Core First Communication Boards

Low-tech versions of Snap + Core First are available in all grid sizes in PDF format and to edit in Boardmaker Online and Studio. They can be an introduction to modeling or used as a back-up to the Snap + Core First app.
