What is Coronavirus?
Coronavirus is a new disease that has made some people sick all around the world. When this happens, we call it a pandemic.
People who have it might feel sick. They might cough, have a fever or have trouble breathing.
Most people who get the coronavirus will get better.
Most of the time, children do not get the coronavirus.
If you don't feel well, someone who takes care of you will call your doctor.
Lots of people may have questions about the coronavirus. You might feel worried. You can talk to someone about it.
There are things you can do to stay healthy. These are the things you can do to stay healthy. Wash your hands, cough into your elbow and try not to touch your face.
