

TD Eye Gaze Pathway Top Tips

Realistic expectations

Set realistic expectations with the team and the individual. Remember that each day may be different, and that's ok!

Motivate

Make it motivating and fun! Play and learn together, don't make it a quiz or test.

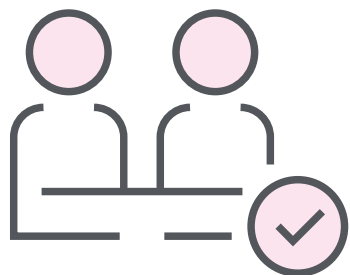

Follow their lead

Keep sessions short and personalized. Follow the individual's lead.

Inspiring environment

Find a space that allows for concentration, good lighting, and comfortable positioning.

Model

When modeling, use your eyes and talk through everything you are doing with your eyes. Praise their good work but notice if your feedback becomes distracting.

Patience

Be patient, we are learning a new way to play and communicate!
