

Tabbed Communication Book

1. Cut along the dotted lines on the right and bottom edges of each page to cut out the tabs. The final page (Keyboard) doesn't need to be cut at all.
2. Laminate the pages. Cut around each page, including the tab. Leave a narrow edge of laminate all around for durability and to keep moisture out.
3. Assemble the pages in order, lining up the left and top edges (where you see the page number).
4. Bind the pages along the top edge using snap rings, brads, a comb binder, or other method.
